VOLT ACTIVE DATA

Volt Active Data Contributor License Agreement

The following is the Contributor License Agreement that is required for anyone interested in contributing to the open source projects made available by Volt Active Data, Inc. ("Volt").

VOLT ACTIVE DATA CONTRIBUTOR LICENSE AGREEMENT

Thank you for your interest in participating as a contributor to the open source projects made available by Volt including those published at github.com/VoltDB (the "**Project**"). Volt's software, including the Project may be made available by Volt under free and/or commercial licenses and subscriptions.

This Contributor License Agreement ("**Agreement**") is for your protection as a Contributor as well as the protection of Volt and its users and is intended to conclusively and clearly set out the responsibilities and obligations associated with Contributions (as defined below). Volt, as owner of the Project, has each Contributor enter into this Agreement and agree to the terms below. If you agree to be bound by these terms, fill in the information requested below and provide your signature. If you do not agree to be bound by these terms, do not post or submit your materials to the Project.

You and Volt hereby accept and agree to the following terms and conditions, effective as of the earlier of (a) the date this Agreement is last signed below and (b) the date of your first Contribution to the Project (the "**Effective Date**"). By submitting a Contribution to the Project, You agree to be bound by, and consent to, the terms of this Agreement, whether or not You have signed this Agreement, and this Agreement shall apply to every Contribution You have submitted or will submit to the Project. You agree that Your acceptance of this Agreement may be given by handwritten signature, electronic signature, electronic acceptance (including through a click-through or automated contributor license agreement process), or by submitting a Contribution, and that each such form of acceptance shall have the same legal force and effect as a handwritten signature and shall constitute a writing signed by You for purposes of any applicable law. The terms and conditions of this Agreement are as follows:

1. Contributors and Contributions.

1.1 Any individual or legal entity that voluntarily submits to the Project a Contribution is addressed herein as "**Contributor**" or "**You**". For legal entities, the entity making a Contribution and all other entities that control, are controlled by, or are under common control with that entity are considered to be a single Contributor.

1.2 A "**Contribution**" is any original work or any modification or addition to an existing work, including without limitation any source code, object code, patch, tool, sample, graphic, specification, manual, documentation, or any other material, that has been submitted for inclusion in, or documentation of, any of the products owned or managed by the Project, where such work originates from that particular Contributor.

1.3 A Contribution is "**submitted**" when It is sent to the Project as a pull request, merge request or other code submission made through a source code repository designated by Volt for the Project, including the repositories published at github.com/VoltDB. Volt accepts Contributions only by pull request, and only from Contributors who have accepted this Agreement before submitting the pull request. Volt does not solicit or accept Contributions by email, mailing list, issue tracking system or any other means. If You nevertheless send any software, code, documentation or other material to Volt of any of its personnel by any other means, Volt has no obligation to review, return or keep confidential such material, and You agree that such material shall be deemed a Contribution subject to this Agreement. The Project is under no obligation to accept any Contribution or include any Contribution in any Project software or documentation.

2. Contributor Grants.

2.1 You hereby irrevocably assign, transfer, and convey to Volt all right, title and interest in and to the Contribution. Such assignment includes all copyrights, copyright applications, and copyright registrations, and all other intellectual property or proprietary rights other than patent rights relating to the Contribution, together with all causes of actions accrued in your favor for infringement thereof, recognized in any jurisdiction, whether or not perfected ("**Proprietary Rights**"). To the extent that under any applicable mandatory law, Proprietary Rights cannot be assigned, You irrevocably agree to grant, and You

hereby grant, to Volt an exclusive, perpetual, irrevocable, unlimited, worldwide, fully paid, and unconditional license to exercise all rights under such Proprietary Rights, including the right to use and commercialize the Contribution in any manner now known or in the future discovered and the right to sublicense such Proprietary Rights to third parties through multiple levels of sublicenses or other licensing arrangements. In case that under mandatory law You retain any moral rights or other inalienable rights to Contributions, You agree not to exercise such rights in your Contribution against Volt, its licensees, its transferees, its users or its customers. The assignment and licenses granted in this Section 2 are in addition to, and do not limit, replace or otherwise affect, any assignment, license or other grant of rights to Volt under any Volt Services Agreement (as defined in Section 6).

2.2 You hereby grant to Volt and to any and all individuals and entities who obtain, access, use, or distribute any Volt product a perpetual, non-exclusive, worldwide, fully paid-up, royalty-free, irrevocable (except as set forth below with respect to litigation) license, with right to sublicense (through multiple levels of sublicensees or other licensing arrangements), to any patent rights to make, have made, use, offer to sell, sell, import, and otherwise exploit or transfer your Contribution, in whole or in part, or prepare derivative works thereof, where such license applies only to valid patent claims licensable by You that are necessarily infringed by your Contribution alone or by combination of your Contribution with other work of the Project. The patent license granted in this Section 2.2 shall immediately terminate with respect to any party that institutes patent litigation against You or Volt (including a cross-claim or counterclaim in a lawsuit) alleging that your Contribution, or the Project work to which You have contributed, constitutes direct or contributory patent infringement.

2.3 Upon making the assignment and grants set forth in Sections 2.1 and 2.2, You shall receive from Volt a non-exclusive, worldwide, fully paid-up, royalty-free, irrevocable license to make, have made, use, reproduce, distribute, sub-license, modify and prepare derivative works based on your Contribution, solely with respect to those portions of the Contribution that originate from You. This license does not grant You any right, title, interest or license in or to any software, code, documentation or other material owned or licensed by Volt, or included in any Volt product or the Project, other than the portions of Your Contribution that originate from You, including any such material that Your Contribution modifies, extends, depends upon or is combined with. Any right You may have to use such Volt material is governed solely by the separate license terms under which Volt makes it available. No other rights are granted to You, whether by implication, estoppel or otherwise.

2.4 In order to ensure that Volt will be able to acquire, perfect and use its Proprietary Rights under Section 2.1 and its patent license under Section 2.2, You will: (a) sign any documents to assist Volt in the documentation, perfection and enforcement of its rights, and (b) provide Volt with reasonable support and access to information for recording, perfecting, securing, defending, and enforcing its rights. You also irrevocably designate and appoint Volt as your agent and attorney-in-fact, which appointment is coupled with an interest and shall survive Your death, disability or incapacity, to act and sign on your behalf and take any necessary steps in order to perfect Volt's rights under this Agreement.

3. Contributor Representations.

You represent and warrant that: (a) You are legally entitled to grant the above assignment and license; (b) if your employer(s) has rights to intellectual property that You create that includes your Contributions, You have received written permission to make Contributions on behalf of that employer in accordance with the terms of this Agreement or that your employer has waived such rights with respect to any party for your Contributions to the Project; (c) except for AI-Generated Material disclosed in accordance with clause (h) below, each of your Contributions is your original creation; (d) to the best of your knowledge, your Contributions (including any use or operation thereof) do not violate any third party's copyrights, trademarks, patents or other intellectual property rights; (e) to the best of your knowledge, no government license or permission is required for the export, import, transfer or use of your Contributions; (f) entering into this Agreement and submitting any Contribution does not violate, breach or constitute a default under any other agreement to which You or your employer is a party, does not require any consent, approval or waiver from or notice to any third party, and does not violate any law or regulation; (g) no Contribution contains, incorporates, links to, or is derived from any software, code or other material that is subject to a Copyleft License, and no Contribution will, by its inclusion in or distribution with any Volt product or the Project, cause any Volt product, the Project or any portion of either to become subject to the terms of a

Copyleft License. "**Copyleft License**" means any license that requires, as a condition of use, modification or distribution of the licensed material, that such material, or any other software incorporated into, derived from, or distributed with such material, be (i) disclosed or distributed in source code form, (ii) licensed for the purpose of making derivative works, or (iii) redistributable at no charge, including without limitation the GNU General Public License, GNU Lesser General Public License, GNU Affero General Public License, Mozilla Public License, Eclipse Public License, Common Development and Distribution License, European Union Public Licence, Server Side Public License, and any similar license; (h) You have disclosed to Volt in writing, at or before the time of submission, whether any portion of a Contribution was generated, in whole or in part, by any artificial intelligence or machine learning tool, including any code generation or code completion tool ("**AI-Generated Material**"), and have identified each such tool used; (i) You have reviewed and tested all AI-Generated Material and take full responsibility for it as if You had authored it; (j) Your use of each such tool complied with its applicable terms, such terms do not restrict the use or distribution of, or claim any right in, the AI-Generated Material, and You hold all rights necessary to grant the assignment and licenses in Section 2 with respect to the AI-Generated Material; and (k) to the best of your knowledge after reasonable review, no AI-Generated Material reproduces any third party's code or other material, including any material subject to a Copyleft License.

4. Contributor's Ongoing Obligations.

You agree to notify the Project promptly of any facts or circumstances of which You become aware that would make the representations and warranties in Section 3 inaccurate or untrue in any respect. You agree to provide full disclosure and complete details of any third-party license or other restriction (including, but not limited to, related copyright, patents and trademarks) which are associated with any part of your Contribution. Upon Volt's request, You will provide reasonable information about any AI-Generated Material, including the tool(s) used and the manner in which it was generated. Volt may, in its sole discretion, decline to accept, or remove from any Volt product or the Project, any Contribution that contains AI-Generated Material or material subject to a Copyleft License.

5. Disclaimer of Warranties.

You are not expected to provide support for your Contribution, except to the extent You desire to provide support. You may offer support for free, for a fee, or not at all. EXCEPT FOR THE EXPRESS WARRANTIES SET FORTH IN SECTION 3, NEITHER YOU NOR VOLT MAKE ANY WARRANTIES OF ANY KIND TO THE OTHER PARTY, EITHER EXPRESS OR IMPLIED, INCLUDING WITHOUT LIMITATION ANY WARRANTIES OF A CONTRIBUTION'S MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE.

6. Miscellaneous.

This Agreement contains the entire agreement between the parties, and supersedes all prior or contemporaneous agreements or understanding, whether written or oral, relating to its subject matter; provided, however, that nothing in this Agreement shall supersede, limit, amend or otherwise affect any employment agreement, offer letter, consulting or independent contractor agreement, confidential information and invention assignment agreement, or other agreement between You and Volt or any of its affiliates (each, a "**Volt Services Agreement**"). In the event of any conflict between this Agreement and a Volt Services Agreement, the provision that is more protective of Volt's rights shall control. This Agreement may be amended or modified only in a writing executed by both parties. If any provision of this Agreement shall be deemed invalid or unenforceable, the validity and enforceability of the remaining provisions of this Agreement shall not be affected and such provision shall be deemed modified only to the extent necessary to make such provision consistent with applicable law. The validity, interpretation, construction and performance of this Agreement shall be governed by the laws of the Commonwealth of Massachusetts, without giving effect to the principles of conflict of laws. Each party irrevocably submits to the exclusive jurisdiction of the state and federal courts located in the Commonwealth of Massachusetts for any action or proceeding arising out of or relating to this Agreement, and waives any objection to venue in such courts, including any objection based on inconvenient forum; provided that Volt may seek injunctive or other equitable relief to protect its intellectual property rights in any court of competent jurisdiction. Volt may assign or otherwise transfer this Agreement, and any or all of its rights and obligations hereunder, without Your consent, to any affiliate or to any successor in interest in connection with a merger, acquisition, consolidation, corporate reorganization, change of control, or sale of all or substantially all of its assets or of the business or product line to which this Agreement relates. You

may not assign this Agreement without Volt's prior written consent, and any attempted assignment in violation of the foregoing shall be null and void. This Agreement inures to the benefit of, and shall be binding on, each party and their respective heirs, successors and assigns.

IN WITNESS WHEREOF, intending to be legally bound, the parties hereby execute this Volt Active Data Contributor License Agreement as of the dates set forth below.
